

A Patient's Guide: Registering in MyCareCorner

The MyCareCorner (MCC) patient portal provides patients with access to their electronic health record. You, as the patient, can register for the MyCareCorner patient portal several different ways. Typically, your healthcare provider (hospital or clinic) will provide you with an email (if you provided an email address) or a printed copy of instructions for accessing the MyCareCorner website.

- **Email Invitation:** Contact your healthcare provider (hospital or clinic) to request an email registration invitation for MyCareCorner.
- **Printed Invitation:** Contact your healthcare provider (hospital or clinic) to request a printed registration invitation for MyCareCorner.

Gaining access to your health record is a 2-step process, regardless of the method that you choose.

- Step 1: Create a MyCareCorner account.
- Step 2: Link your health record (or the record of a family member) to the appropriate MyCareCorner account.

The instructions for these steps are included in this document.

Using the Email Invitation

The email is generated by your healthcare provider (hospital or clinic) and contains embedded information specific to the patient being invited to the portal. If you haven't received an email, contact your provider to generate one for you.

1. Click the link in the email. The MyCareCorner welcome page is launched in your web browser.

2. Click **Continue**. A security question is displayed to confirm your identity. Answer the question and click **Next**.

The screenshot shows the MyCareCorner registration process at the 'Answer Security Question' step. A progress bar at the top indicates the current step. The main content area asks, 'What is your date of birth (MM/DD/YYYY)' and provides a text input field with the example '12/31/87'. Below the input field is a 'Next' button.

3. A question is displayed: ***Do you already have a MyCareCorner account?***

The screenshot shows the MyCareCorner registration process at the 'Create Account or Sign In' step. A progress bar at the top indicates the current step. The main content area asks, 'Do you already have a MyCareCorner account?' and provides two options: 'Sign in to existing account' and 'Create a new account'.

Typically, the answer to this question is **Create a new account**. If you click **Create a new account**, the Create Your Account page is displayed. Proceed with step 4.

However, if you already have a MyCareCorner account that you set up previously (invitation from another provider), click **Yes**. If you click **Yes**, the Sign In page is displayed. Enter your **Email** and **Password** and click **Sign In**. An Invitation to Access page is displayed, indicating records that can be associated with your account. See the [Adding Additional Family Members to Your MCC Account](#) document on CPSIQ for details on that process.

4. In the fields on the Create Your Account page, enter your first name, last name, an email address (enter twice to confirm), mobile number (if available – used for text messages regarding your account), and password (enter twice to confirm).
